

### **NMLS Mortgage Loan Originator (MLO) Registration Validation**

Please go to <http://www.nmlsconsumeraccess.org/> <<http://www.nmlsconsumeraccess.org/>> and verify that your NMLS registration is visible and is correct and accurate. If the "Individual License/Registration" section of your NMLS registration does not show the following three (3) pieces of information, your loan will not pass compliance and you may not be allowed to proceed with your file. Your NMLS registration must contain ALL of the following information.

1. Authorization to conduct business in the state that the property is located must say "Yes".
2. Status must say only "Approved". "Approved-Inactive" will not be allowed.
3. Your company must be in the "Currently Authorized to Represent" section.

**Mortgage Loan Originators must be properly authorized to represent their company in the NMLS.**

If any of these 3 items are not correct, you may need to correct your NMLS registration. Please refer to the NMLS website and phone number indicated below for further instruction.
